

Mirror with lighting
 ASPE05991L

Diego Vencato, Marco Merendi, 2014

Mirror with a lighted blown glass frame.

Round mirror with frame in metallic blown glass treated with metal coating which makes the surface reflecting and permeable to light, also available in version without light. Lighting is built into the frame of the mirror. The blowing technique was created by hand, therefore any bubbles or impurities on the surface should be considered particular detail on the item.

Diameter:	60.5 cm	23" 13/16 inches
Depth:	12 cm	4" 3/4 inches
