Shower curtain support system

---

---

Support system for shower curtains made with a stainless steel band with external polished finish and internal satin finish, fastened to the ceiling with cylindrical brackets in polished stainless steel. Various lengths are available, multiples of cm 75 (29" 1/2), which make it possible to create several different open configurations. A bracket is required at cm 75 (29" 1/2) intervals.

---

Lunghezza:                      150 cm                      61" inches

---

**Finiture**

Polished

**Materiali**

Stainless steel
