

Shelf with front element made-to-measure
ASEN0921NS

Gwenael Nicolas, Curiosity, 2008

Shelf made from brushed anodised aluminium in black to be matched with the range of taps with the same name.

Note: The natural anodising process does not guarantee that all products will have the same finish: slight colour differences cannot be considered reason for complaints. Due to their unique shape, we recommend that all wall-mounted accessories are fixed to a perfectly flat surface.

Finiture

Black anodised

Materiali

Aluminium
