

Wall mounted washbasin 20 cm
P-VENTIQUARANTA-1

LucidiPevere, 2023

Materiali

Concrete

Wood

Stainless steel

Minimal dimensions and extreme flexibility for a modular object in two variants, both playing on the same sizes: 20 x 40 cm. In the perpendicular version, fixed to the wall along the shorter side, the washbasin is complemented by a container with a drawer with two shelves. The version parallel to the wall, fixed on the longer side, is integrated with a container with hinged door and two shelves or a flap door towel basket. The washbasin is made of concrete in various finishes while the container is available in two different materials: wood in multilaminar veneer in oak or teak finishes or brushed stainless steel, also suitable for outdoor use. The series also includes a version with a garden hose holder inside the container.

Altezza:	72 cm	28" 11/32 inches
Larghezza:	22.8 cm	8" 31/32 inches
Profondità :	40 cm	15" 3/4 inches
